

K-Love is a blessing for me and my family to listen to. It offers programming where I don't have to worry about what my children hear. It is always an uplifting experience to listen to. If our current K-Love FM radio service is displaced, we would lose a great station that may or may not be appropriate for my family. Having a station like K-Love available for the public can do nothing but improve those who listen to it. Please, do not remove this station in favor of LPFM's.
